## **VAI Named to Software Magazine's 28<sup>th</sup> Annual Software 500**

*Software Magazine Ranks VAI as one of the World's Largest Software Companies*

Ronkonkoma, N.Y. – Sept. 30, 2010 – [VAI](#) (Vormittag Associates, Inc.) today announced its inclusion on *Software Magazine's* Software 500 ranking of the world's largest software and service providers, now in its 28<sup>th</sup> year. VAI is a leader in enterprise resource planning (ERP) solutions for the distribution, [manufacturing](#), retail and service industries, and an IBM Premier Business partner.

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers targeting medium to large enterprises, their IT professionals, software developers and business managers involved in software and services purchasing.

Approximately 47% percent of the 2010 Software 500 companies are privately held, including VAI.

John P. Desmond, editor of *Software Magazine* and [Softwaremag.com](#), said, "The Software 500 helps CIOs, senior IT managers and IT staff research and create a short list of business partners. It is a quick reference of vendor viability. Additionally, the online version, to be posted soon at [www.Softwaremag.com](#), is searchable by category, making it what we call the online catalog to enterprise software."

Bob Vormittag, President and CEO, VAI, said, "It is a great accomplishment for VAI to rank among the largest software providers throughout the globe. Our inclusion in this year's Software 500 demonstrates VAI's presence as a trusted leader in ERP solutions. We will continue to lead the way in ERP technology with our always-evolving S2K Enterprise Software Suite."

The Software 500 is based on total worldwide software and services revenue for 2009. This includes revenues from software licenses, maintenance and support, training and software-related services and consulting. Suppliers are not ranked on their total corporate revenue, since many have other lines of business, such as hardware. The

financial information was gathered by a survey prepared by King Content Co. and posted at [www.Softwaremag.com](http://www.Softwaremag.com), as well as from public documents.
