VAI Partners with ADP to Provide Enhanced Sales and Use Tax Solutions

Partnership Offers VAI Customers Enhanced Efficiencies & Significant Time Savings with Automated Tax Processes

Ronkonkoma, N.Y. – July 28, 2011 – VAI (Vormittag Associates, Inc.), an award-winning ERP software provider, announces a new partnership with Automatic Data Processing, Inc. (Nasdaq: ADP), one of the world's largest providers of business outsourcing solutions. The partnership allows VAI customers access to ADP's Sales and Use Tax System to help calculate tax for sales purchases and rentals through VAI S2K Enterprise Software. ADP also offers VAI customers a sales tax solution that automates the sales tax compliance process in its entirety. This streamlined operation can provide significant time savings, reduce costs, and mitigate the risk of calculation and filing errors.

With VAI's S2K solution, customers can increase efficiencies and responsiveness to realize improved bottom-line results, but there was still a need for automated management of sales and use tax tables. ADP's Sales and Use Tax System contains an industry-leading product taxability matrix to calculate the sales tax owed for both the U.S. and Canada. This solution works across all industries, particularly for those customers selling in multiple regions and geographies.

"VAI is always looking for ways to proactively address and respond to customer needs and empower them to achieve their business objectives. Expanding our partner network is one way we can effectively accomplish this," said Joe Scioscia, vice president of sales, VAI. "Partnering with ADP provides our customers with ongoing access to time and cost-saving benefits for the sales and use tax process to ultimately assist with driving bottom-line results."

"The partnership is a win-win for ADP, VAI and, most importantly, VAI's customers. We're excited to provide a sales and use tax solution that adds value to VAI's customers," said Brian Rubel, VP of Alliances. "ADP is always looking for ways to enhance the client experience and increase overall satisfaction. We believe this partnership achieves that goal."

VAI will be hosting a free Webinar entitled "Automate sales tax compliance with ADP's Sales & Use Tax System" on August 24, 2011 at 2:00 pm ET to discuss its new partnership with ADP and the benefits that this sales tax solution can offer. VAI's own Joe Scioscia will be hosting the Webinar and presenting a case study to highlight the ROI customers can expect as a result of ADP's Sales and Use Tax System.
