"Give your Health a Shot"

As part of HIA-LI's initiative "Give your Health a Shot" (Thank you to Ron Loveland for the name!) and as we begin to see an increase in vaccine distribution and eligibility the HIA-LI is working with the state to get up to date information. Many of HIA-LI member organizations have asked how your locations can become pods to help get vaccinated.

The state has told us if you'd like to enroll in the state's vaccination program and have the ability to administer the vaccines yourselves, you can find more information here: https://coronavirus.health.ny.gov/covid-19-vaccine-information-providers. Your company can be part of New York's vaccination program **if you meet the qualifications found on the above website.**

Otherwise, if your company is interested in being a pop-up hosted by NYS, please reach out to Theresa Santoro at Theresa.Santoro@exec.ny.gov directly. For the pop-ups, the state's focus has been on working with the Health Equity Taskforce to make sure they are reaching Long Islands hardest hit communities and communities of color.

If you'd would like to be considered for a pop-up hosted by Suffolk County, please input your organizations information via this link: https://suffolkcountyny.force.com/public/request/VACCPOD/location or email: PODsuggestions@suffolkcountyny.gov.
